Fluke PTi120 400°C Pocket Thermal Imager

Have the troubleshooting power you need right in your pocket.

The bigger the problem, the faster you need to solve it. The new Fluke Pocket Thermal Imager puts the power to minimize downtime in everyone's hands with the right tool at the right time. As the first line of defense for easy troubleshooting, the PTi120 empowers you to stop fighting fires on the job, and start preventing them.

Rugged, Pocket sized portable camera

Small enough to carry every day without worry, the PTi120 stands up to dirt and water with IP54 rating and can survive a 1-meter drop. Now enhanced infrared inspections are right in your pocket for quick temperature scans of electrical equipment, machinery and other assets.

Get your preferred level of infrared every time

The 3.5" LCD touchscreen offers IR-Fusion™ to blend a visible light image. Slide your finger across the screen to adjust the setting.
