

# International Standard IEC60309 Electrical Connection Equipment

IEC60309 is an international IEC standard for plugs, socket outlets and couplers for industrial purposes. It is used when compatibility of couplings is needed across borders and jurisdictions.

Qixing R&D, testing and manufacturing facilities specialise in industrial plugs, sockets and couplers and conform to ISO9001:2015 quality certification.

Qixing are one of the largest manufacturers of international standards electrical products in the world.

## Testing Quality Control Exceeds International Standards

Temperature-Rise Test

Sand Dust Test

Rainfall Test

Insertion & Extraction Force Test

High & Low Temperature Test

Glow Wire Test
