

NEW

LYRA DRY PROFI Construction Marker

Features

- High-quality marker with automatic lead feed in high resistant stainless steel tube
- Resistant cap with improved clip guarantees easy to use one-handed operation
- Integrated sharpener with a guide shaft allows easy and quick sharpening without removing the cap
- Equipped with a special graphite lead for all surfaces (wood, metal, glass, ceramics etc.)
- Marks easy to remove from glossy surfaces with a damp cloth
- Graphite leads are easily refillable from the front or back of the marker
- Multi-usage thanks to special colour leads: for bright or dark surfaces, watersoluble or water resistant
